motionfiber single 18-way set

18-way fiber box | 300m cable (incl. drum)

fiber box – 18-way

- 2 self-sufficient E-Link Hermaphroditic Connectors with **18** singlemode fiber channels per E-Link
- safe plug-in-connection by E-Link ring-lock-system
- 2 intuitive fiber patch panel, with **9** Duplex-LC SM sockets. All sockets are interoperable and compatible to opticalCon Duo or Duplex LC cords.
- **36** singlemode fibers available on each unit
- 3U Rack Mount
- no power supply necessary

300m cable

- 18 channel singlemode fiber cable up to 100km length
- military standards for usage in dynamic, harsh environments
- the hermaphroditic design allows multiple cables to be directly connected without adapters (E-Link ring-lock-system)
- transport on a stackable Schill cable drum
- length: 150m or 300m

motionfiber single 24-way set

24-way fiber box | 300m cable (incl. drum)

fiber box – 24-way

- 2 self-sufficient E-Link Hermaphroditic Connectors with **24** singlemode fiber channels per E-Link
- safe plug-in-connection by E-Link ring-lock-system
- 2 intuitive fiber patch panel, with **12** Duplex-LC SM sockets. All sockets are interoperable and compatible to opticalCon Duo or Duplex LC cords.
- **48** singlemode fibers available on each unit
- 4U Rack Mount
- no power supply necessary

300m cable

- 18 channel singlemode fiber cable up to 100km length
- military standards for usage in dynamic, harsh environments
- the hermaphroditic design allows multiple cables to be directly connected without adapters (E-Link ring-lock-system)
- transport on a stackable Schill cable drum
- length: 300m

motionfiber dvi 2-way set

transmitter | receiver

- 2 self-sufficient dvi connections per unit
- 2 dvi-i built-in sockets (24+5)
- 2 fiber connections via Duplex-LC SM socket
- fiber connections intercompatible with Neutrik optical-con
- power supply via Neutrik PowerCon and PowerCon link
- status LED for every dvi connection
- singlemode version
- 1U rack mount
- dvi-d standard 1.0
- Resolutions up to 1920x1200@60Hz
- EDID transparent
- HDCP transparent
- latency-free video transmission via fiber (SM up to 20km)

motionfiber dvi 4-way set

transmitter | receiver

- 4 self-sufficient dvi connections per unit
- 4 dvi-i built-in sockets (24+5)
- 4 fiber connections via Duplex-LC SM socket
- fiber connections intercompatible with Neutrik optical-con
- power supply via Neutrik PowerCon and PowerCon link
- status LED for every dvi connection
- singlemode version
- 1U rack mount
- dvi-d standard 1.0
- Resolutions up to 1920x1200@60Hz
- EDID transparent
- HDCP transparent
- latency-free video transmission via fiber (SM up to 20km)

motionfiber dvi media extender set

E-Link | transmitter | receiver | 300m cable (incl. drum)

- 2 self-sufficient dual-link dvi connections per unit
- 2 gigabit network ports via Neutrik Ethercon connector
- no configuration needed
- fast lock connections for trussmount hook
- 4 safety eyelets around the housing
- transmitter in 19" housing (1U)
- connection for transmitter and receiver via E-link fiber cable
- power supply via Neutrik PowerCon connector
- status LED for every dvi connection
- dvi-d standard 1.0
- Resolution up to 1920x1200@60Hz
- latency-free video transmission via fiber (SM up to 20km)

motionfiber hdmi 2-way set

transmitter | receiver

- 2 self-sufficient HDMI fiber connections per unit
- 2 Neutrik HDMI sockets
- 2 fiber connections via Duplex-LC SM socket
- power supply via Neutrik PowerCon Connector
- status LED for every HDMI connection
- singlemode version
- 1U Rack Mount
- HDMI standard 1.4
- resolutions up to 1920x1200p@60Hz
- HBR audio embedded
- EDID transparent
- HDCP transparent
- latency-free video transmission via fiber (SM up to 60km)

motionfiber hdmi 4-way set

transmitter | receiver

- 4 self-sufficient HDMI fiber connections per unit
- 4 Neutrik HDMI sockets
- 4 fiber connections via Duplex-LC SM socket
- power supply via Neutrik PowerCon Connector
- status LED for every HDMI connection
- singlemode version
- 1U Rack Mount
- HDMI standard 1.4
- resolutions up to 1920x1200p@60Hz
- HBR audio embedded
- EDID transparent
- HDCP transparent
- latency-free video transmission via fiber (SM up to 60km)

motionfiber dmx media extender set

Opticalcon DUO – multimode transmitter | receiver

- plug and play solution for Robe RoboSpot™ Follow Spot system
- rdm input and output compatible
- status led for quick status indication
- no configuration needed
- direct power distribution out of the box
- 1 xlr 5-pin connections per unit
- 1 gigabit network port via Neutrik Ethercon connector
- 1 PowerCon True1 link on front panel
- power supply via Neutrik PowerCon True1
- fast lock connections for trussmount hook
- 4 safety eyelets around the housing
- transmitter in 19" housing (1U)
- singlemode Version
- connection for transmitter and receiver via optical-con fiber cable
- latency-free transmission via fiber (SM up to 20km)
